- Reviewed by Commission
- Support for Rehab and Return-to-work

Central  
Gov't.  
Agency

## Organisation Chart

### ❖ Affiliated Agencies

- NHI : National HRD Institute, - The Appeals Commission

### ❖ Affiliated public organisation

- Government Employees Pension Service

‘e-Saram’ system is an **electronic human resources management system** which supports personnel policy and management **from recruitment to retirement**.

The 『e-Saram』 system is an integrated system linked to the **‘Standard HRM System’** which handles the personnel affairs of each ministry, and the **‘HR Policy Support System’** which supports the personnel policy and management of the Central Personnel Management Agency.

## 1st Generation (2000.10 ~ 2008.1)

### :: Groundwork for PPSS (Personnel Policy Support System)

- Expanded to all ministries
- Client/Server based (Main system for Central Personnel Agency, and Sub-system for each ministry)

## 2nd Generation (2009.4 ~ 2012.12)

### :: Conversion into Next Generation system

- Information resources (hardware, software, databases) integrated into main system
- Web-based environment and new services

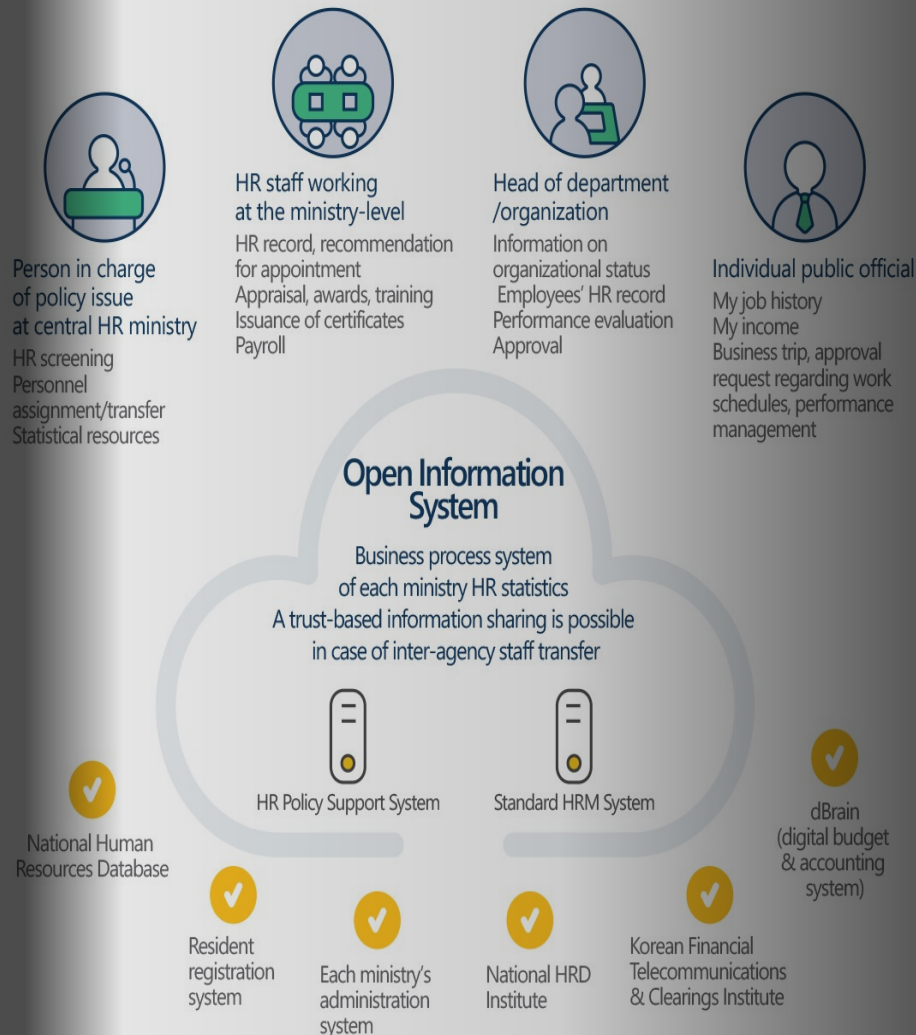

## HR Policy Support System

- Management of the SCS (Senior Civil Service) pool and candidates, and provision of support for their personnel affairs
- Provision of support for personnel screening management and online screening for the recruitment, promotion and appointment of the SCS
- Provision of support for approvals and validation of presidential appointments related to new recruitment and promotion of civil servants eligible for appointment requests
- Processing of accumulated data into the formats needed by users and provision of diverse statistical data needed for decision-making

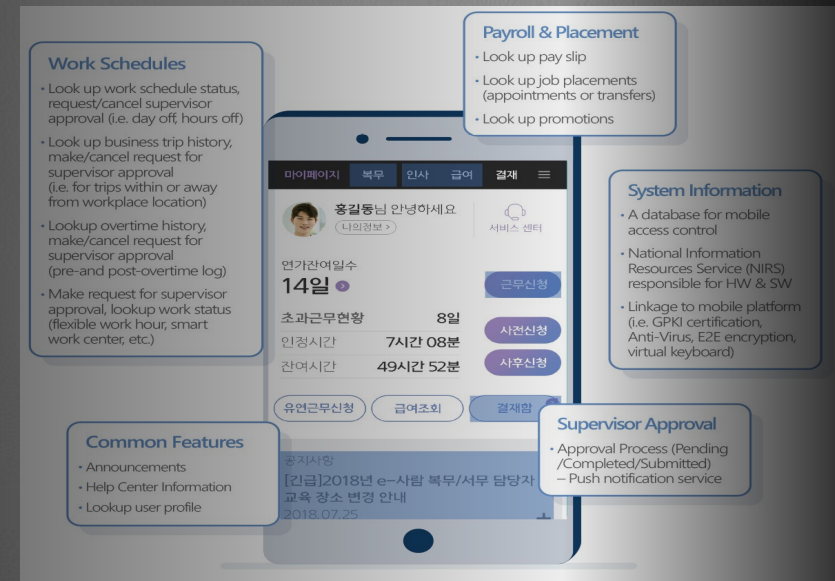

## Service available by user type

## Integrated operation

- Cloud-based integrated system to share server and database
- Physical and logical convergence of divisional database
- Interoperability and resource utilization upgraded through personnel information sharing
- Enhanced security, measurability and safety

## Mobile service

## (e.g.) Payroll Management

**Monthly Payroll Task**

작업일: 2016.09

입용처리 기간: 2016.08.19 - 2016.09.18

**전달내역**

구분	내역명	내역금액	잔액
1	Salary	750	2,176,900.00
2	연봉급	25	172,125.00
3	장근수당	675	56,174.90
4	장근수당(가산)	340	7,222.00
5	가족수당(배우자)	963	21,793.30
6	가족수당(부모)	463	4,337.30
7	가족수당(자녀)	372	11,291.30
8	가족수당(60세이상)	155	3,914.60
9	가족수당(70세이상)	34	1,020.00
10	가족수당(70세이상, 2016년 1월)	6	400.00

**가산금**

구분	내역명	내역금액
1	장근수당	2
2	장근수당(가산)	1
3	가족수당	1
4	가족수당(가산)	1

**가산금**

구분	내역명	내역금액
1	장근수당	2
2	장근수당(가산)	1
3	가족수당	1
4	가족수당(가산)	1

## (e.g.) Statistics

**Statistics**

기간: 2016.08.19 - 2016.09.18

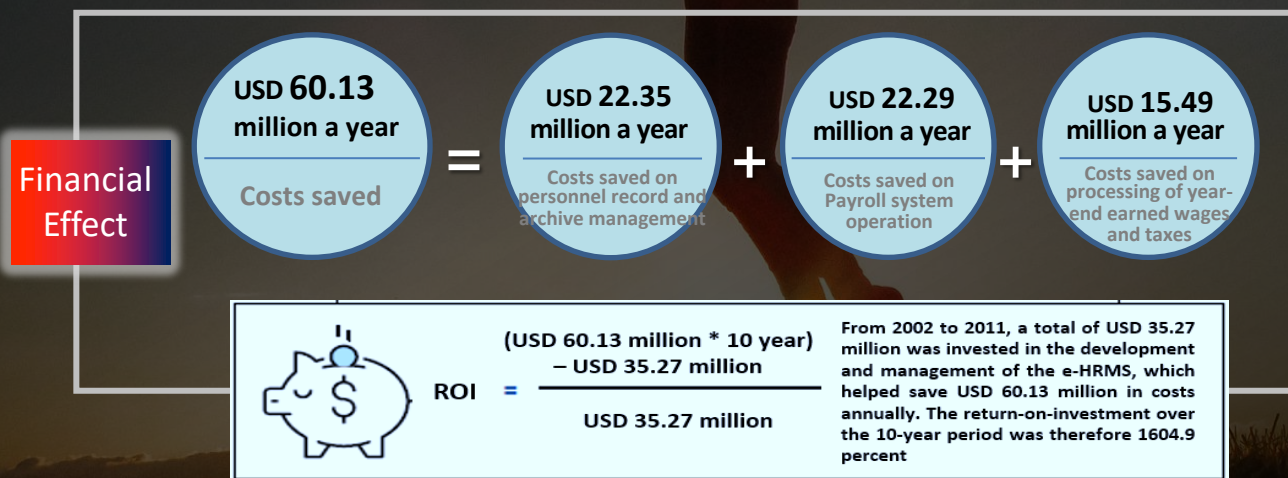

**Statistics**

기간: 2016.08.19 - 2016.09.18

## Efficiency

- Integrated and service-oriented system with cloud-based information linked to real-time updates upon HR movement across ministries as well as shorter intervals for collecting HR data for each ministry.
- Cost reductions through the prevention of duplicate investment

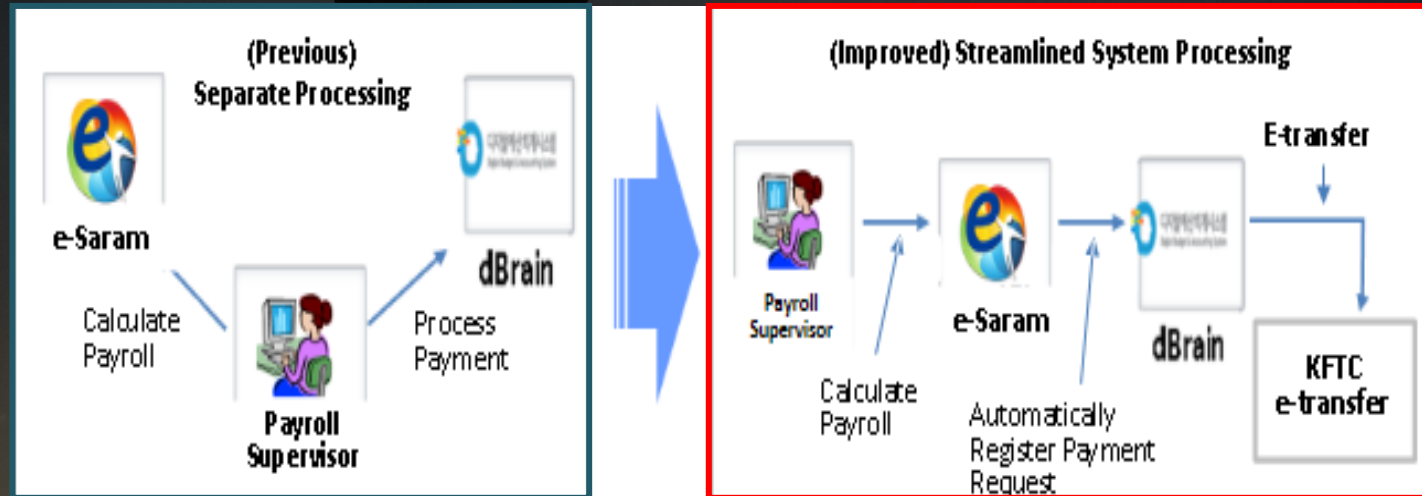

Through e-Saram, payroll operations for 959 agencies were integrated into 347 agencies across 57 ministries (63.8%↓)

1,083 Payroll Supervisors (as of Dec. 2013)⇒ 510 (52.9%↓), redistribution and reorganisation of human resources

## Transparency & Fairness

- Integrating Payroll Processing Agencies and Streamlining Accounting Systems

### Improved System

- Prevention of nepotism: Personnel policy support service for sustainable management of policies and rapid decision making

## Effectiveness & Credibility

### :: Strategic and Agile government based on data and evidence

- Agile and flexible personnel administrative service that proactively responds to changes in administrative environment
- Up-to-date maintenance and self-development incentives

### :: Work from home and Flexible work system

- Easy-to-use, safe personnel service through customized services for users and mandatory protection of personal information

## Success Factors

- ❖ Great care was taken, from the early stages of system development, to support the phase-by-phase expansion and reliability of the completed system and maximize its utility by connecting it to other existing e-government information systems.
- ❖ The developers made efforts to have the e-HRMS included as one of the 10 major tasks of e-government development in Korea and actively appealed to the leaders of departments and agencies in order to secure the support necessary to see the project through to its conclusion.
- ❖ The system, which digitalized a comprehensive range of personnel tasks, from employment to promotion, assessment, remuneration, and duties, maximized HRM efficiency.
- ❖ The focus of PHRM (Public Human Resource Management) shifted from paperwork to computer systems, supported by the amendment of existing laws and rules.

# DIGITAL TRANSFORMATION

## :: Digital Transformation (DX)

- \* Any activity that uses new ICTs (5G, IoT, A.I.) to digitalize physical entities, in which the digitalization results in innovation and the transformation of organizations.

**Digital-oriented**

# Scientific and Fair Personnel Management

# Integrated Digital HRM

Digitally connecting and automating entire procedures from recruitment to retirement, will improve the efficiency as well as agility of personnel administration

- :: RPA (Robotic Process Automation)
- :: OCR (Optical Character Recognition) / E-paper
- :: Information system linkage

## Continuous performance management tool

Objective and impartial performance management through real-time feedback and big-data analysis of employee performance

## HR Data Hub

Establishing the foundation for analysing big data  
by linking all personnel information  
with e-Saram

- :: Cloud Computing Service (e.g., PaaS / SaaS)
- :: OLAP (On-Line Analytical Processing)
- :: Human Resource Demand Forecasting

## Open Data

Expanding data sharing particularly regarding  
public HR policies with the private sector

- :: e.g., Online education platform, Headhunting companies

Outreach service

Customized and

Personalized Service

# Electronic Self-service for HR

Providing each individual with the necessary information in advance and answering queries about personnel affairs through 'chat-bots'

- :: Chat-Bot (programmed Chat Robot)
- :: Machine Learning Model
- :: 24-hour hotline available 365 days a year

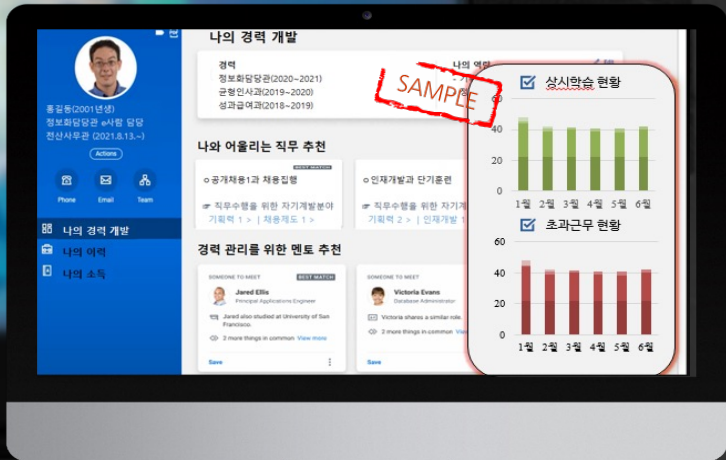

## My Data

Displaying all data, including personnel records, salaries, welfare and pension, at a glance

## A.I. facilitator of competency

Based on Artificial Intelligence, recommending  
career development planning and customized  
training programmes

:: Online Mentoring Service

:: Link to HRD digital platform

:: Online Job Posting System

Convenient & Flexible

User-centered

Interface and Environment

# Hybrid Work Environment

Realising agile public administration  
by offering anytime, anywhere access, as well as  
creating a user-friendly and comfortable interface

- :: Mobile Oriented Application Platform
- :: Stronger Cyber Security Solution
- :: Speech-To-Text Software

# Modularization Design

Optimising for each agency (organisation) and country  
through the use of e-Saram system modularization  
for individual business process

:: OOP (Object-Oriented Programming)

**Thank You**
